

**Title: OCH/SLR DME Orthotics Order**
**Audience: Providers**
**Application(s): Inpatient, ASAP, Ambulatory**
**Date: 10/20/20**
**Author: Lori Angarone**

**BRIEF OVERVIEW** To ensure accurate ordering information is provided for patients requiring orthotics, a **new DME Orthotics order**, “DME Orthotics (Pacific Medical)” is available for use in Urgent Care, the Emergency Room, and on discharge from the Emergency Room, ambulatory surgery, or any other location that utilizes DME Orthotics.

### WHAT YOU NEED TO DO

1. Open the patient’s chart. In the Orders section or activity, search for the “DME Orthotics (Pacific Medical)” order using search terms such as “pacific medical”, “orthotics”, “dme”, “bracing”, or “orthopedic soft goods”.

Search for the order using key words such as:

- pacific medical
- orthotics
- dme
- bracing
- orthopedic soft goods

2. When the order composer opens, select the **Orthotics Location**.

**DME Orthotics (Pacific Medical)** [Accept] [Cancel]

Priority: [Routine] [Routine]

Orthotics Location: ☐ Neck/Back ☐ Shoulder ☐ Hand/Wrist ☐ Knee ☐ Foot/Ankle ☐ Mobility

[Next Required] [Link Order] [Accept] [Cancel]

3. After selecting the orthotics location, additional questions appear (depending on location response) so you can choose details such as what equipment is needed, and which extremity is involved. Sign the order after completing the responses.
